SUMMARY

To bring my expertise in the field of Computer Science into profession obtained through University of Engineering and Technology, Lahore.

WORK EXPERIENCE

Aug 2020 - Present -

I have more than 1.5 years experience in Website Development, Flutter Mobile Application, Machine learning, UI/UX Design, Business Card Design, Transcription. I learnt different skills during covid-19 and got expertise.

EDUCATION

BS Computer Science

Oct 2019

University of Engineering and Technology, Lahore
📍 Lahore, Pakistan

Pre-Engineering

Jul 2017 - Jun 2019

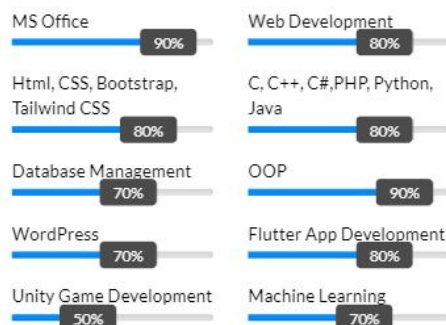

Govt. Boys Higher Secondary School, Kot Chutta
📍 D.G.Khan, Pakistan

Matriculation

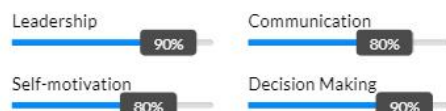

Apr 2015 Mar 2017

Darain Public School, Kot chutta
📍 D.G.Khan, Pakistan

TECHNICAL SKILLS

PERSONAL SKILLS

COURSES

Programming fundamental

University of Engineering and Technology, Lahore

Object Oriented Programming

University of Engineering and Technology, Lahore

Data Structures and Algorithms

University of Engineering and Technology, Lahore

Assembly Language

University of Engineering and Technology, Lahore

Theory of Automata

University of Engineering and Technology, Lahore

Analysis of Algorithms

University of Engineering and Technology, Lahore

Software Engineering

University of Engineering and Technology, Lahore

Artificial Intelligence

University of Engineering and Technology, Lahore

Mobile Application Development

University of Engineering and Technology, Lahore

Machine Learning

Simplilearn

Big Data Analytics

University of Engineering and Technology, Lahore

Database Management Systems

University of Engineering and Technology, Lahore

Computer Networks

University of Engineering and Technology, Lahore

FINAL YEAR PROJECT

Title: Web Content Accessibility Assistive Tool

Description: An NLP based system that augments the assistive technology to outperform the accessibility tasks for every website by optimizing the web content and bringing an improved experience to the site audience without involving the site's developer. The system provides a personalized and customizable experience to the site audience.
